PROFESSIONAL SUMMARY

Highly driven and ambitious EIT certified- Civil Engineer with 3.5 years of working experience in civil engineering and construction management. Eager for navigating dynamic work environments with skill and precision. Keen to learn new expertise and to contribute to innovative projects.

EDUCATION

Bachelor's degree in civil engineering | 2017-2022

Tribhuvan University, Kathmandu, Nepal

Master of Science in Construction and Facilities Engineering | 2026-Present

University Of North Carolina, Charlotte (Fully Remote)

- **Relevant Coursework:**

Transportation Engineering (CE653), Transportation Engineering II (CE703)

SKILLS

- **Technical Skills**

AutoCAD, Blue Beam, Procore, Primavera P6, ETABS, SAP, MS-Office Suite

- **Soft Skills**

Proficient in organizational and time management skills, collaborating effectively within teams, detailed-oriented with capacity to manage multiple tasks simultaneously

- **Lingual Skills**

Proficient in English, Nepali and Hindi languages

CERTIFICATION

- Engineer-In-Training (E.I.T)

- OSHA-10

- Procore Certified: Project Manager at owner (core Tools)

- Procore Certified: Project Manager at owner (Project management)

- Procore Certified: Project Manager at owner (Quality and Safety)

PROFESSIONAL EXPERIENCE

Civil Engineering | Sheladia Associates Inc | January 2026-Present

- Assist Senior Engineers with hydrologic and hydraulic calculations for stormwater projects using **Civil 3D**, **HEC-RAS**, **TR20**, and **TR-55**
- Work on **DC Water** projects, including replacement and rehabilitation of old waterlines.
- Developing site layouts and grading plans in **civil 3D** for volleyball and basketball courts

- Worked on AVB projects through **AutoCad** drafting, design updates, and coordination with senior engineers

Land Development | J2 Engineers Inc | January 2025-October 2025

- Design and create technical documents in **AutoCAD** using **Carlson** Design software
- Work with a team to prepare construction plans for a variety of **land development**
- Open and closed **storm drainage** systems including stormwater management
- Water and **Sanitary Sewer** system design
- Compliance with **zoning ordinances**, proffers, and applicable facility standards
- Develop working knowledge of **VDOT**, state, and local standards policies and procedures.
- Perform **QA/QC** of own work prior to presenting to supervisor.

Construction management Intern | HICAPS | Aug 2024- December 2024

- Managing RFIs and Scheduling
- Assisting project manager in documenting, pricing, providing appropriate documents of change, shop drawing submittals, identifying options to mitigate the impact of negative deviations to the project budget.

Construction Project management | July 2022- July 2023

- Worked on “**Jhamsikhel**”, “**Dholahity**” and “**Nepaltar**” construction project
- Documented daily site reports, monthly construction reports, and project schedules
- Assisted manager in documenting, pricing, providing appropriate documents of change.
- Prepared rate analysis and subcontractor's bills to enhance budget management.
- Inspected the site and completed quality assurance while ensuring conformance to safety standards and construction specifications.
- Involved in preparing tender documents and assisted with bid submissions

Intern | December 2021- April 2022

- Project evaluation
- Assist Project manager in managing RFI system and shop drawing submittals to meet the project schedule.

TERM PROJECTS

Survey Camp | 2018

- Performed survey to design road and bridge alignments
- Calculated surveyed data using **MS EXCEL** to design alignments
- Imported the data from **EXCEL** to **AutoCAD** using **SWDTM**

Seismic Analysis and Structural Design of Multistoried RCC Framed Building | 2021

- Performed Design calculation of the provided architectural drawing manually
- Performed **estimation** of the building using MS Excel
- Applied structural engineering principles and used **ETABS** to analyze the building's behavior under seismic forces. Utilized Indian Standard codes for load calculation and designed structural elements
- Prepared a report using **Microsoft Word**
